

Hi there!

Thank you for purchasing our **RETRO BADGES VECTOR PACK!**

You will find that the files included are very well organized and extremely easy to customize.

Every AI, EPS or PSD file has several shape layers and two or more text layers (named appropriately).

All you need to do is select the text you want to edit and type your own.

Please note that the shape layers are blocked, so you don't modify them accidentally.

If you want to edit them as well, simply click the locker icon on the left to unlock the appropriate layer.

Before you begin using the files, you need to download & install the fonts used:
